

ACTIVITY 2

Design the following pages required for an Event Management System

1) Homepage:

The static homepage must contain three frames.

Top frame: This frame should contain logo and college name followed by links to Homepage, Login page, Registration page, Event Details page and Payment page.

Left frame: Atleast four links for navigation, which when clicked displays the respective page in the right frame.

Right frame: The pages to the links in the left frame must be loaded in this frame. Initially, this frame contains the description of the web site.

2) Login page:

This page looks will have username and password fields with submit and reset buttons.

Login Form

Username:	<input type="text"/>
Password	<input type="password"/>
<input type="button" value="Submit"/>	<input type="button" value="Reset"/>

3) Events Page:

The events page should contain the details of all the types of events available in the website in a table.

The details should contain the following:

A webpage showcasing various events with images, descriptions, duration of events and a contact form for inquiries or registration

4) Registration Page

Create a registration page as shown in the below image.

Registration Form

Name:

Password:

Email:

Phone No:

Gender: ☒ Male ☐ Female

Date of Birth: Day: Month: Year:

Languages known: ☐ English ☐ Telugu ☐ Hindi ☐ Tamil

Address

5) Cart Page

Create a static cart page which contains dummy data and a **Make Payment** button as shown in the image below.
